

# GAIA-CLIM roadtrip 2017 – call for volunteers

- As discussed previously we shall replace the third user workshop instead with a travelling roadtrip.
- We have covered in preceding session what that may look like
- We now need to decide who would be involved to visit where and when
- We need volunteers

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 640276.

# Volunteer requirements

- Have time left available on GAIA-CLIM (we are not looking for pro bono effort) ideally against WP6
- Be available for a 1-day training in the VO to be offered by EUMETSAT in May / June
- Have time to be briefed (perhaps at same event) on GAID and prioritisation document
- Be willing to visit one or more of the identified target parties / events

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 640276.

# Volunteer support

- Feedback collection form
- Training and informal basis support from WP5/6
- Reallocation of the travel support fund for outreach which partners can claim against in final reporting period
  - c.80K remains
- Support from WP7 on best endeavors basis

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 640276.

# Looking later this afternoon

- Expressions of interest from you
  - Does not constitute a firm commitment at this stage
- Think about
  - Availability
  - Interest
  - Potential for networking / seeding follow-on work / projects
- We'll take volunteers names after coffee

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 640276.
